What do we do?

- We support families in a variety of ways with the research and documenting of their relatives family names, certificates, documents, pictures, countries of origin, migration journeys and more.
- Create beautiful reports inclusive of all information gathered.
- Interview family members to collect any information available.
- Providing you with all the information and references.

How do we do this?

- We talk to you and any relatives/close friends about their lives and the people they can remember.
- Research online and archives world-wide
